Incumbent county commissioner Don Welser, Lovells Township supervisor candidate George Wingeier, and Lovells Township clerk candidate Walter Leibold have filed for a recount of ballots from the August primary. Welser lost 108 to 105 to William Ruddy, Wingeier lost 82 to 61 to Lyle Jewell, and Leibold lost 80 to 61 to Helen Spencer. The state is holding all the ballots for possible recounts at the state level. Crawford County Clerk Beth Wieland said the state will probably not release the ballots until sometime in September.

The last recount in Crawford County took place in September, 1982, following the primary that year. In that recount, requested by an incumbent commissioner Walt Nowak, Welser's winning margin of 106 votes to Nowak's 95 remained unchanged by the recount.

COOR's Finances Improve

The Crawford-Ogemaw-Oscoda-Roscommon Intermediate School District, under the direction of Superintendent Harry Groulx, was rebounded from serious financial problems that hurt the district for several years. In the school year 1981-82 COOR had to borrow \$634,700 on anticipated taxes and state aid. For this school year, 1984-85, COOR anticipates borrowing only \$60,000 — which will amount to quite a savings in interest paid on loans compared to previous years.

Mercy Cuts Costs of X-Ray - Lab Work

Mercy Hospital, Grayling announced today a 20 percent rollback in charges for x-ray and laboratory work, effective August 1. The cuts came as a result of Mercy Hospital's cost adjustment program designed to bring charges in line with industry standards.

According to Julie Nankervis, Mercy Hospital controller, patients also will realize savings on emergency room visits as a result of reorganization in the billing process. The new process provides the billing department with detailed itemized charges for services performed and actual time spent with physicians.

Decision to Close Hanson Park Expected

The nine-member Grayling Recreation Authority board is expected to vote to permanently close Hanson Park at their meeting Wednesday, Aug. 15, at 7 p.m.

A county-wide millage including funds for the park failed by 109 votes in the August 7 election.

Marty VanDeVen, GRA chairman, said all the board

members are heartbroken over the millage defeat and the consensus among members is to close the park for good.

"I don't want to do it — we've all worked so hard to keep that park going," VanDeVen said. "But right now I have to vote to close because of the financial conditions."

The park is \$12,000 to

\$15,000 in debt. VanDeVen said the only way left to pay the outstanding debts seems to be close the park and sell the equipment. If the park closes, use of the 285-acre park returns to the military, who had leased the land to the GRA for 14 years back in 1977.

The public is invited to the GRA meeting and VanDeVen said the board is willing to listen to any ideas.

Hanson Hills cleared most of their debts in December when they went to the city of Grayling, Grayling Township, and Crawford AuSable School district asking for in-kind services to reduce expenses. A second consecutive short ski season put the park behind the eight ball again, though. VanDeVen said the cost of insurances, utilities, and the main-

tenance — especially buying parts for equipment — is expensive at the park.

Despite the last two poor winters for skiing, things looked bright for the park on the ski slopes for this winter. The park has been attracting school and church groups and VanDeVen said a lot of seeds of interest in the park have been planted. With an average or good winter, the numbers of skiers at Hanson Hills probably would have increased greatly this winter, he said.

The park's history dates back to the early 1930's and it may be Michigan's first ski park. During the 30's and 40's it was Michigan's most popular resort attracting as many as 10,000 persons in a single day during Grayling's well-known Winter Carnival.

In its heyday, the park

boasted a toboggan run that thrilled passengers more than 35,000 times a season. A five-acre skating rink, called the finest in the midwest, was also a main attraction at the park. Michigan Amateur Skating Races were held on it featuring more than 175 skaters. The park also had a 36-foot-high semi-pro jump and the Novie Ski Jumping Championship for the state was held here.

Additionally, the park was the site of some of the most spectacular ice sculptures ever built in northern Michigan. Special "snow trains" used to be scheduled from Detroit, Lansing, and Grand Rapids to bring downstaters up to the Grayling ski park.

The park continued to be popular into the 50's and 60's although northern Michigan resorts with bigger and

faster hills gained prominence. The park hit hard times in the 70's when private businesses at the park were removed following a long legal battle.

In the 80's the park started to rebound by upgrading cross-country ski trails and using Camp Shawono crews and DSS workers to repair and improve park facilities. The park also changed into a year-round recreation area offering all kinds of activities.

Howard Taylor, manager at the park until finances ran out and he could not be rehired, said the park will honor all contracts to hold events until October 15. The Crawford County Fair will take place at Hanson Hills and other activities planned there up to October 15 will still be held.

800 Apply for K mart Jobs

Approximately 800 persons applied for jobs at the new Grayling K mart store last Thursday and Friday.

Les Felder, manager of the Grayling K mart, said he had expected more applicants than that for the approximately 100 positions at the Grayling store.

Felder said they plan to begin moving merchandise into the Grayling store August 20 and the opening date will be September 20.

The \$2.7 million store is located along the south I-75 Business Loop and nearly all the construction on the building is finished. The store is

52,325 square feet and the construction was planned and supervised by Agree Development, of Southfield.

The Michigan Employment Security Commission Job Service office in Grayling started a list of persons interested in K mart

jobs back on January 2nd. The list grew to about 800 persons this month and the job service office supplied introduction cards for all 800 to present to K mart when applying for a job. Jim Karpicke, from the Grayling MESC Job Service office,

said the majority of the 800 persons signed up at MESC picked up their introduction card before applying at K mart.

Work on the store site began last January with crews clearing the land.

School Board One Step Away from December Vote

The Crawford AuSable School Board is a final step away from approving a December election to vote on a new middle school proposal at the football field site in town.

The board voted 4-0 Monday night at its regular meeting to present an Application for Preliminary Qualification of Bonds to the Michigan Dept. of Education. The final step in setting the election for December is expected to come at the board's regular meeting in September.

The proposed site for the new middle school is at the

football field site adjacent to the Grayling Elementary School.

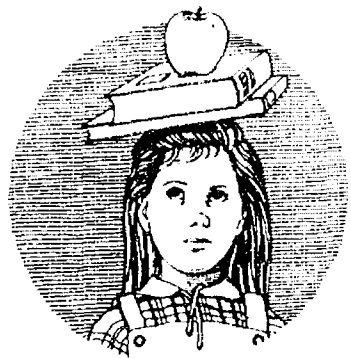

In other board news, a computer science curriculum for grades 6 to 8 was adopted. The middle school program was designed to fit in with computer science programs already adopted for grades K to 5 and 9 to 12. The program will be revised on a yearly basis to meet the needs of the students.

The board also adopted 1984-85 District Priority Goals. A further look at the goals will be in next week's Avalanche.

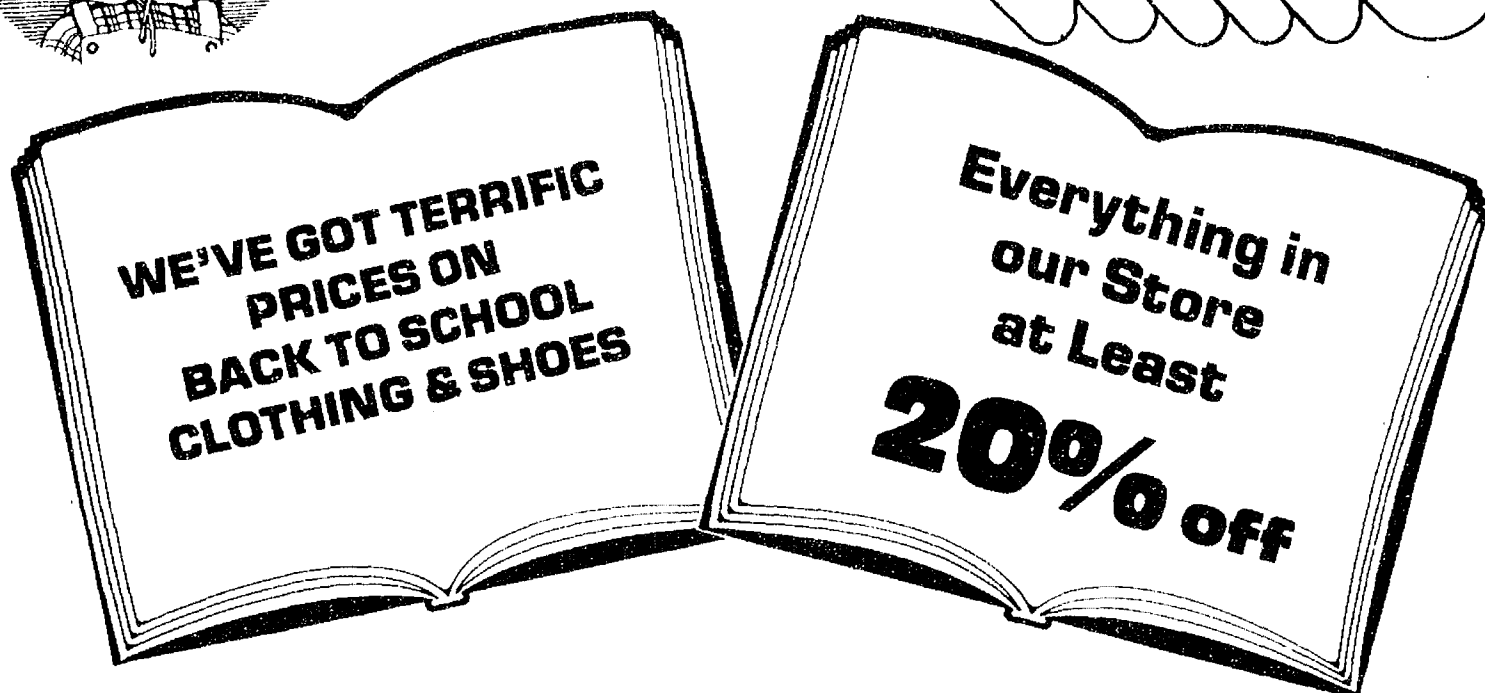

102nd BIRTHDAY — John Dare, a long-term care patient at Grayling Mercy Hospital, receives congratulations from Sister Mary Aurelia Champagne on his 102nd birthday July 17. Dare was born in New Lisbon, Indiana, in 1882 and one of his first jobs was painting wheels for the Hamilton Buggy Company in Ohio. When asked what he attributes his long and active life to, Dare paused for a moment and took a puff from his pipe before replying, "Eat good meals, attend church regularly, and when you're feeling poorly, drink a shot of blackberry brandy."

From Our Corner...

We were somewhat surprised, and a little disappointed that the one-half mill for the purpose of implementing and operating a county recreation program of which one-quarter mill was to be used for the operation expense of Hanson Hills was defeated at the polls on August 7th...it is almost certain that the defeat of the millage will signal the closing down of Hanson Hills, and the property will revert back to the Military Board of the Michigan National Guard...

Even though we don't partake in the winter activities at the park there are many that do, and we hate to see the demise of the park that has been the granddaddy of all winter sports parks in Michigan as it dates back into the early '30's and was the mecca of winter sports enthusiasts on weekends for so many years...

In recent years competition for the winter fun people became enormous as ski parks opened all over the north country and even some down state...

his forced Hanson Hills to become more of a local family park but still operating for those wishing to use the facilities from outside the area...the closing will probably effect the girls' and boys' ski teams at the school, and will definitely stop any tourists from using any of the park...

The nine-member Grayling Recreation Authority board is to meet this Wednesday evening and is expected to vote to permanently close the Hills due to the financial bind it is in...the passage of the millage would have allowed the board to continue on operating the facilities but, with the defeat the closing is the only alternative the board has...

The Miss Grayling Pageant will have to take on a new name as it has always been Miss Grayling Winter Sports and without a park the name means nothing...

What Grayling needs, and doesn't have is a sugar-daddy to underwrite projects such as this...it is evident the taxpayer has their limit to contend with...it is sad to see the closing of Hanson Hills...

With the Republican Convention getting underway, it won't be long when the mud will really start to fly among the two party candidates...just hope they don't preempt the Chicago Cubbies or Atlanta Braves baseball games on TV, then I don't care how much TV time they take...

Right about now we could use some help from R.J. or Irvin to help fill this turkey...here is it Monday afternoon and we have ran into a mental block and can't come up with anything...I know some of our smart aleck friends with remark that we have the mental block every week, and possibly they're right...some weeks there just seems to be enough to fill the bird without groping, and then other weeks, blah, hum bug, or whatever you want to call it...

We are back to normal at our house...Thelma is back and was on the links Sunday, and will be there tonight, and we never left the fried hamburgs or frozen dinners, that's what I had last night...hamburger tonight...we're not complaining, at least we have a new set of clean clothes which we just about ran out of the week she was gone...Thelma talked to Toni Sunday and they are just about all settled in their new home and trying to acquaint themselves with the surroundings...she also talked to Cyd in Nevada and they are fine out there, just trying to beat the heat...that is quite a job when it is continually over 100, but then they don't worry too much about snow in the winter time...

The Leprechaun has put in a new toy at his Drug Store on the corner...a blood pressure machine...now you can keep track of your blood pressure and report anything that might be wrong to your doctor...it's simple to use, doesn't hurt, and doesn't cost a penny to use...compliments of Mac's Drugs...

This just about takes care of this week's turkey, so we will bid T.J., Stefany and Amber goodnight, and to all of our readers, plan on taking in Crawford County's second annual Fair August 24-26...

Perfect weather for river sports and canoe trips down the AuSable River was accorded the annual Canoe Carnival events here last Saturday and Sunday. Water contests staged during the afternoon were enjoyed by a crowd of 400 drawn to the park near the AuSable River bridge. The successful array of contests staged included greased pole walking, won by James Hebb of Berkley, West Virginia, the log riding contest won by Muriel Andrews of Roscommon, and the fly casting contests, in which Ernie Borchers of Grayling placed first in the accuracy division and Ralph Redhead of Gray-

ling placed first in the distance division. The canoe tilting event, however was the one that provided the crowd the most enjoyment. This event was won by Jack Redhead, Jr., of Grayling.

HUNGER IN AMERICA

In 1955 the federal government was spending less than \$200 million dollars in food for the poor. At that time a USDA dietary survey showed that three quarters of the poor consumed adequate diets. Today the government is spending over \$18 billion on food and the percentage of poor with adequate diets is about the same. In spite of a 100% increase in federal spending the poor's diet shows little or no improvement. Hunger was turned into a political issue during the 1960's. By the early 1970's the definition of hunger had changed from insufficient food to low income. It was determined that in spite of the USDA report that two thirds of the poor did not have bad diets, liberal humanists have determined that any poor person not fed by the government must be hungry and malnourished. Today we have twice as many people receiving food assistance from the government as the liberals said needed such assistance when the program started.

A recent USDA study of Supplemental Security Income recipients found that food stamp payments only increased food purchases by 14 cents. A 1967 USDA study found little difference in nutritional status between those of similar income who used food stamps and those who did not. For example, Calcium is the most deficient nutrient in poor people's diet, and poor people consume less calcium now than when the food program began. A survey showed that households receiving food assistance spent approximately four times more on non alcoholic beverages like soft drinks and fruit punches than non-food stamp households. In other words, the nutritional problem could be stated as a matter of choice of pop over milk.

While we do not minimize the nutritional problem. All of us are equally concerned

about the health and safety of helpless children. It is obvious that giving the poor more money for food will not solve the problem. The USDA has found that poor people were drinking three times as much alcohol in 1977 as they did in 1965. Food stamps can easily be pawned for cash and used to buy other things. The Congressional Budget Office has noted: "Vitamin fortification could provide for 100 percent of a child's recommended daily allowance for less than \$3 a year in ingredient costs." It should be clear to all of us that the answer to the problem has not been found.

In both the physical and spiritual realms, a person becomes what he eats and drinks. One who consumes large amounts of alcohol over a long period of time, often becomes an alcoholic. One who feeds his heart and mind on the Word of God is transformed: "I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God. Romans 12:1, 2. More food for either the body or mind will not alter malnutrition unless he has the proper diet. A diet pleasing to God.

RIDING THE CIRCUIT

with ALTON T. DAVIS

- ★ All contracts for the sale and purchase of real estate must be in writing
- ★ A corporation, like a person, may take, hold, buy and sell property. It can also make contracts, sue and be sued
- ★ It has been said that, "Laws are generally found to be nets of such a texture, as the little creep through, the great break through, and the middle-sized are alone entangled in."
- ★ When property has been damaged or destroyed by another person, the owner is entitled to compensation — either by recovering the amount of loss caused by the damage, or by recovering the cost to restore the property to its condition BEFORE the damage

BY THE WAY... "Ignorance of the law excuses no man; not that all men know the law, but because it is an excuse every man will plead, and no man can tell how to refute him."

THOUGHT FOR FOOD by GOULD CROOK

Simply Sweet and Saucy Chicken
2 broiler-fryer chickens, 3 lbs. each, quartered
1/4 cup butter or margarine, melted
1/4 cup dry white wine
1 1/2 cups pineapple preserves
2 tsp. white vinegar
2 tsp. orange juice
2 tsp. soy sauce
1 tsp. ground ginger

Place chicken pieces, skin side up, on grill about 8 inches above moderately hot coals. Mix together melted butter and wine; brush on chickens. (Save remaining ingredients.) Turn chicken with long, wooden-handled barbecue tongs every 15 minutes, brushing frequently with wine mixture. Grill until done, about 50 or 60 minutes. To test for doneness: pierce chicken with fork and if juices run clear, it's done. While chicken is cooking, in small saucepan, combine preserves, vinegar, orange juice, soy sauce and ginger; heat on grill. Brush some sauce on cooked chicken; serve remainder separately, if desired. Makes 8 servings.

Ground crews monitor satellites round-the-clock until they are established in orbit. They have to keep track of temperatures and voltages of electronic systems, always critical with machines whose sunward side may be 300 degrees hotter than the shaded part, says National Geographic.

Join Cystic Fibrosis Campaign

The Cystic Fibrosis Foundation is happy to announce the Chairmen of the 1984 Breath of Life Campaign in Michigan. For Frederic will be Annabelle Armstrong, and for Grayling, Jeanie Harwood.

September has been designated by the National Health Council as the month for the Cystic Fibrosis Foundation to promote their major educational and fund-raising campaign. The U.S. Congress has also formally declared September 16 - 22 as CF Week nationwide. The chairmen will organize campaigns to raise money for research, education, diagnosis and treatment of Cystic Fibrosis.

Although Cystic Fibrosis is still the leading genetic cause of death among children, the average life expectancy is now the early twenties. The greatest health problems from CF are caused by increased lung damage from repeated infections and by malnutrition from inadequate digestion of food. With early diagnosis and daily therapy and medications, the quality and length of child's life is improved.

Gene Riley, State Campaign Chairman, reports however, "Though great strides have been made in treating Cystic Fibrosis and in extending life expectancy, it is still estimated that every day five children are born with CF, and every day three people die from CF. We're hoping that this year's Michigan Breath of Life Campaign will help change those numbers for the better. We're working hard, but we can't continue without continued financial support."

The Foundation wishes to express appreciation to the many people who are assisting in the Breath of Life Campaign.

IN MEMORIAM

Michener Improves With Age

by Richard Milliman

PRESENTED herewith, for your consideration, are recent quotations culled from various publications available to all and covering a variety of subjects...or how to write a column using other people's words:

IN A RECENT speech to a group of students at Texas Tech, prolific author James Michener discussed his advancing age:

"A person like me becomes almost a function of his calendar age. If you live long enough, people think you are brighter than you are. They want you to do things, they appoint you to committees. It's not because I'm a hotshot. I am reasonably good at what I do, but the fact is that the other fellows my age have dropped by the wayside. They're not around, and I am, and because of it people think I'm rather better and wiser than I am. I must say I'm not unhappy about this."

SYNDICATED columnist Sydney Harris: "If you are tired because your work is demanding, a vacation with a change of scenery can be refreshing and restorative; but if you are tired because your work is un- congenial, then the change of scenery only serves to accentuate the grimness, and makes the job seem more burdensome upon your return."

OLD TIME DEMOCRAT Ben Wattenberg, now a senior fellow at the American Enterprise Institute, described the Democratic party at its recent convention thus: "For all its flaws — and they comprise a long list — it's still a marvelous party, as a week here in San Francisco reminds one. It still brings in the little guy — of all races, of all religions, of several sexual persuasions, and of both genders."

"They come in as fire-breathing, special-interest activists. Sooner or later, the buffeting of politics, the desire to win, the recognition of reality — usually shapes these ac-

tivists into a political force that is progressive without being far-out, idealistic yet realistic."

ANOTHER SYNDICATED columnist, Ellen Goodman, likes the nomination by Democrats of Geraldine Ferraro for vice president: "The plusses on the Ferraro ledger are enormous. The brightest of them is that goose-bump factor. As Americans, we are particularly vulnerable to dream stories, and, as Mondale noted, her life has everything but the log cabin..."

"In the coming weeks, much will be said of gender gaps and demographics, of her ability to attract the working class, or ethnics, or elderly, or women. She will have her clothes, her children, her husband, her accent, her record, her every sentence and every move scrutinized. As the No. 1 woman in the No. 2 spot, she'll be a walking, talking class action on how 'women' perform."

CONSERVATIVE columnist George Will used no names in this recent offering: "A young Democratic professional called from the convention to get his father's assessment of things. The father, a blue-collar worker in the Northeast, said: 'The Democratic Party has been good to me — Social Security, GI Bill, student loans. The Democratic Party made me middle class. But perhaps Ronald Reagan will keep me middle class.'"

"But for the moment, let's talk history. Before 1920, women in the country weren't allowed to vote. In 1984, Gerry Ferraro is running for vice president. Ms. Ferraro said it: 'There's an electricity in the air.'"

SYDNEY HARRIS again: "It is far better to have good memories than a good memory. Too many people who pride themselves on their good memory remember things that were best forgotten."

AND FINALLY, some wisdom from Jerry Green, Detroit News sports writer: "Twenty-five years isn't a very long time, except in a man's life."

Consumers Ask \$7 Billion For Failed Midland Project

Warren M. Hoyt, Executive Dir., MPA

Consumers Power Company has asked the Public Service Commission to let it collect \$7 billion over the next 15 years from its customers to recover the \$3.5 billion it has sunk into the failed Midland nuclear power plant.

The request, which would raise customer rates by about 30 percent, asks the PSC to approve the request as soon as possible because of the utility's "precarious financial situation." It asks customers to pay \$471.8 million for each of the next 19 years.

Attorney General Frank Kelley and Michigan Citizens Lobby Director Joseph Tuchinsky quickly denounced the request and said they would oppose the request before the PSC, and the courts if necessary.

Both were part of a coalition which offered to support a \$2 billion recovery over 25 years if Consumers abandoned the Midland project.

The company said the rate request, filed as an amendment to a pending electric rate hike request, includes \$3.2 billion in construction costs, \$288 million in nuclear fuel costs and taxes and enough to pay interest on the money it borrowed to build the plant and for a rate of return of 6.5 percent for preferred stock shares.

It does not include \$460 million which the company is seeking in a lawsuit from Dow Chemical Company as a termination charge when Dow cancelled its contract to purchase generated steam.

And, utility spokesman Bob Wischmeyer said, the filing does not include costs associated with the shutdown of construction and maintenance and surveillance of the site. Those costs are being calculated and a later filing will be made, he said.

Despite the characterization by officials that the utility's financial condition is precarious, its board of directors approved continued dividend payments for preferred

stockholders and for the next quarter, approved a 10-cents-per-share dividend on common stock.

That is down from 35 cents paid in the last quarter and 63 cents paid before that.

Wischmeyer said he expects the proceedings before the PSC to take at least a year because of the opposition by Kelley and others and said reopening negotiations to reach a settlement on costs to pass on to ratepayers, "is out of our hands."

He said the utility would want all parties, including the large industrial customers, to participate in such negotiations.

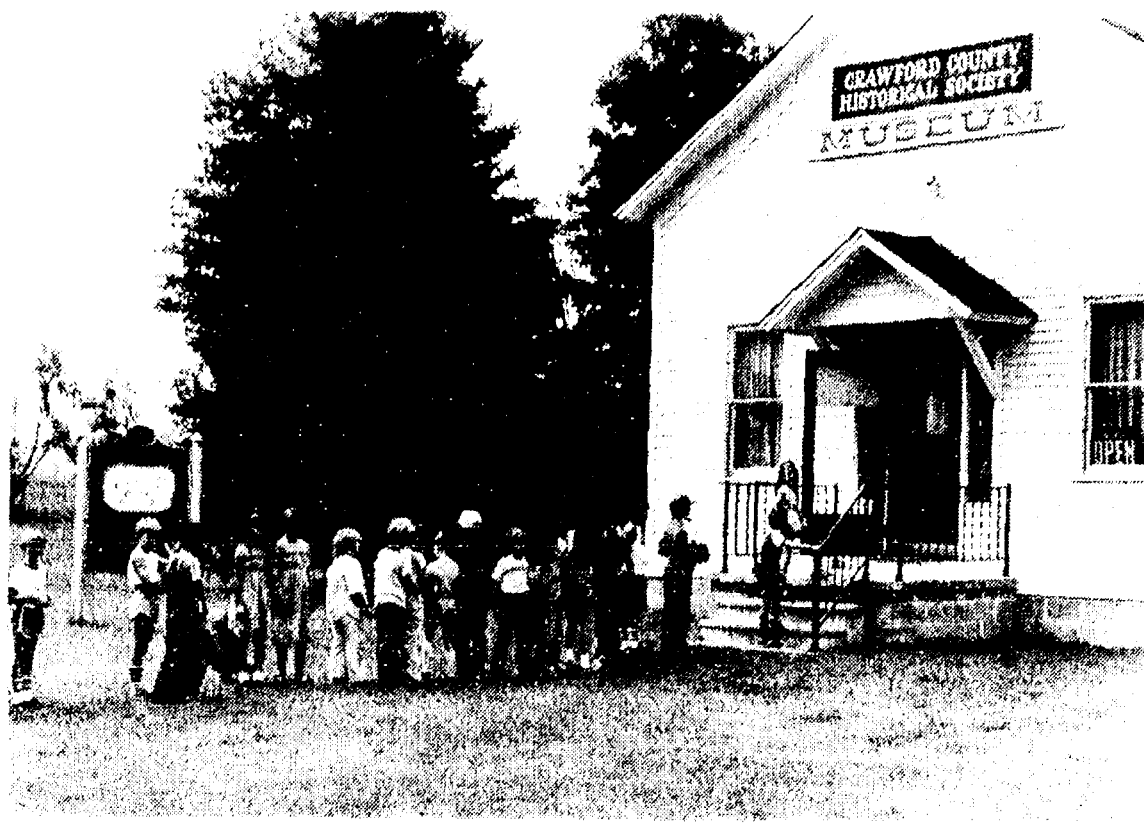

Tuchinsky said he would be interested in negotiations only if the utility agreed to accept the \$2 billion offer with minor modifications, and does not treat the rate filing as an opening figure.

He said the \$7 billion the company is seeking to recover would not be seen as a good faith effort to reach agreement with the coalition.

Tuchinsky said he supported the \$2 billion as a way to ensure the survivability of the utility, but if the company wants more, customers may be better off if it went bankrupt.

Kelley said, "Consumers Power is not entitled to any part of the money it voluntarily chose to invest in its efforts to build an unneeded electric generating facility in Midland. Nor should its customers have to pay anything if Consumers Power decides to mothball and preserve the unfinished plant in the hopes it can someday revive this white elephant."

The utility previously ordered the 16-year-old project halted after negotiations between it and some members of the coalition on how much could be recovered from customers if at least one generating unit were completed. The latest cost estimate to complete that unit was \$5.7 billion.

Citizenship-Washington Focus

Damon Thayer, of Grayling, returned home recently from Washington, D.C., after attending Citizenship-Washington Focus — a week-long experience in citizenship and leadership training at the National 4-H Center. Thayer was one of 46 4-H members from Michigan and 18 states participating. The program is designed to help young people understand the structure of our system of government, the heritage of our country and the importance of active participation as citizens.

Using the nation's capitol as a "classroom", the program included a day on Capitol Hill to meet with members of Congress and see government in action. The Michigan group met with the aides of Congressman Don Albosta and Senators Carl Levin and Don Riegle. Field trips to historical and cultural sites as well as to federal agencies and community organizations were among the most informative and exciting parts of the week, according to Thayer. Included were trips to Mount Vernon, the Smithsonian Institution, Arlington National Cemetery, the Washington Monument, and many other places of interest.

In workshop sessions at the National 4-H Center, the young people discussed contemporary issues and concerns, and ways in which skills and knowledge could be applied to the 4-H program here. Delegates also participated in a pilot computer project, in which they experimented with a program to determine how public policy affects soil conservation and erosion. The personal computers were provided by ValCom, Valley, Neb., with computer software in soil conservation provided by Pioneer Hi-Bred International, Inc., Des Moines, Iowa. Also, since this is a presidential election year, delegates got an opportunity to participate in mock Republican and Democratic conventions, cast a presidential ballot, and use a voting machine.

Also, the Michigan delegation travelled by charter bus to D.C. with an overnight stop in Gettysburg, Pennsylvania. The group took a guided tour thru Civil War battlefields which are now

under the protection of the National Park Service.

Citizenship - Washington Focus is conducted by National 4-H Council in support of the Cooperative Extension Service of the state land-grant universities and the U.S. Department of Agriculture.

Program and staff fellowship support for CWF was provided by the Auxiliary to the American Optometric Association; Conoco, Inc.; Dot Emerson Commemorative Fund, Farmland Industries, Inc.; Getty Oil Company; Hallmark Cards, Inc.; Illinois 4-H Foundation; Iowa 4-H Foundation; Kansas 4-H Foundation; Minnesota 4-H Foundation; Norman C. Mindrum Education Fund; and Sterling Drug, Inc.

Thayer was selected to attend on the basis of his former involvement in our county's 4-H program and leadership abilities displayed in school. Thayer's trip was partially sponsored by the Grayling Rotary Club, to which he is grateful to for their contribution.

More information on 4-H can be obtained by calling the Crawford County Extension office at 348-2841.

Tomorrow.

In each of us is that characteristic, that trait, that thing that makes us different from potatoes and rocks.

That thing that makes us human.

That thing that makes us love life.

That thing that makes us believe life will endure. That it should endure. That it can.

That thing that makes us human gives us our concept of future.

That thing that makes us human also bands us together in one kind of a group or another, each working to ensure the future.

A family is such a group.

So is a government.

So is a company.

This company, Consumers Power, is a group of 260,000 people—employees and shareholders—who believe in the future.

A group of 260,000 people today who carry forward the work of the much smaller group that started this company in 1886.

The day-to-day activities have changed somewhat over the near-century since, but the purpose is the same now as it was then.

This company's purpose is and always has been to supply energy to the people of Michigan.

To do that, we have continually looked ahead to see how people would be living, and working, in years to come.

Our job, really, has been to imagine the future.

To plan.

To study, design, devise, engi-

neer, invent, build, operate, and plan more.

We continually look for ways to provide the energy Michigan needs in ever-increasing amounts.

Each is part of our answer to the continuing questions about energy supplies. For now. For tomorrow.

In our near-century of answering those questions, acceptance of our answer has been extremely high.

Sometimes, rarely, there has been controversy.

The Midland plant has been a controversial answer all along.

We believe that Midland was a correct answer.

Without Midland, we will go back to the question and find a new answer.

This company, this group of people working to ensure the future, will continue to honor the commitment made almost one hundred years ago.

The commitment of today's 260,000 people of Consumers Power that Michigan's homes and schools will be warm in the winter.

That the lights in our libraries will not go out.

That Michigan's future looks bright.

And powerful.

And that Consumers Power will help you live there.

Our ninety-eighth year of looking at tomorrow.

This advertisement is paid for by the shareholders of Consumers Power Company.

IT'S ALMOST FALL and IT'S TIME FOR YOU TO THINK ABOUT YOUR EDUCATION AND

If you're concerned about the cost of education!

The least expensive way to get your education is to live at home and attend Kirtland, a low tuition community college.

Your family could SAVE thousands of dollars in just two years. You can attend Kirtland for \$20.00 per credit hour for tuition. (\$26.00 per credit hour out-of-district). Why not attend Kirtland and then transfer up to two years of credit to the four year institution of your choice? (Tuition subject to adjustment.)

Financial assistance is available in a variety of self-help and gift aid programs. To determine what you qualify for, an application for aid must be submitted early in the year. Applications are available at the college.

The Associate of Arts or Science Degree program is designed to provide students with the basics in Humanities, Social Science, Mathematics, & Sciences. The program allows additional elective credits to meet the required 60 hours for an associate degree. This means that you can transfer up to 60 hours earned at Kirtland to a four year college or university and start at the junior level.

If you're a Veteran!

Kirtland Community College is approved for VA Education Benefits for all Associate Degree programs. Veterans should contact the college's Office of Veteran Affairs to obtain accurate and complete information concerning benefits. KCC Veteran Affairs Coordinator is Ms. Carole Chilton 517-275-5121 ext. 218.

If you need child care services!

Kirtland offers quality care for children of persons who wish to have their child benefit from an enriched developmental pre-school program.

This service provides opportunities for the child's social, emotional, physical, and intellectual development. Parental involvement is encouraged through: observation, conferences, participation, and educational programs. The Child Care Center meets all the requirements for Michigan Licensing and Federal Certification. Children ages 2 1/2 to 6 years of age are accepted. This service is open to all parents and children in the community as well as college students and employees.

The Kirtland Community College Child Care Center is located at House No. 15 College Drive, just south of the KCC campus. Telephone: 275-8290. Manager: Ann Church.

Editor's Mailbox

August 5, 1984

To the Editor,
My husband, father and I wish to express our heartfelt thanks to three enlisted men of the 238th Cav. unit from the Indiana National Guard. Clair A. Davis, David Lee Capers and Tony Andrews.

My father who is eighty-one years old, my husband and I were out on the trails in our four-wheel drive vehicle this week when we became stuck in the loose sand. My father has a heart condition and emphysema and needed to get back to our cabin for medication and a breathing treatment.

My husband started walking and after about ten miles came across these three gentlemen in uniform who graciously came to our rescue. They were so kind and considerate to my father, immediately drove us to their command post to explain the situation to their superior, Capt. Levine, who insisted my father be brought straight home. They delivered us to our door in a jeep. Everything turned out fine with dad, thanks to these fine men, of much compassion and huge hearts. Bless you.

Concerned Citizens and Dog Lovers of Crawford County.

I have had many pets in my lifetime, right now, only tropical fish and the wild animals that are treated better and have more love than most of our neighbors dogs. I consider myself a lover of all God's creatures. Why do I have to tolerate seeing animals abused everyday? How would these people like to be tied up to a tree, post or dog house and have flies and biting insects and heat in the summer, cold in the winter, and fed and watered, when the owner's feel like doing so? I'd love to see it wouldn't you?

A dog in our neighborhood barks, cries, howls, and screams and they only yell for it to "Shut Up". Just a little attention and love would eliminate a lot of problems, but we call the police and animal control and if they do anything, the problem continues and nothing is solved.

These dogs have to eliminate and do so where they have to walk and sit in it all day and we have the privilege of going out in our yard or garden and it is so strong, its unbelievable.

We have had problems with one dog for almost ten years. The dog has puppies every six months and we have to watch the production. The dog is either tied or loose because he isn't consistent, and also allowed to run loose all night. She almost killed our dog twice, and she and another dog attacked me once, when I had hold of my daughters dog and ours. We have called the police and animal shelter and as I said before, nothing is accomplished. He walks the dog carrying the leash and ties it up downtown and since it has a split personality it doesn't or hasn't bitten anyone downtown. She attacks dogs that come in the yard, if she is tied, and recently she wasn't tied and ran out of the yard and attacked a dog in front of our house.

Our animal shelter is nice and they are trying to do things for animals, but you can't guarantee an animal a good home and we, the neighbors, have to suffer.

Dear Whitey,
Last night after the election returns were in, I went to a hotel with some friends. While I was there I had the opportunity to witness one of the elected county officials climbing upon a table and dancing.

I can understand some drunk kid doing something like this, but is it really becoming of a county commissioner???? Is this a responsible person???

Dear Editor,
This letter is written for all people who took time to assist in making the 5th annual Milltown Run a success. Also all the many helpful and kind people who helped the runners in any way along the 6.2 miles. Also the young girl who stayed on her bike behind the last runner. Not being gifted as a runner and age catching up it was a very happy morning for me and look forward to doing it again "with God's help". Thanks again.

Iron Mountain, Mi.

To those who thought Bill LaMotte couldn't make the run, he did it, and he would like to dedicate his run to Allen Carr, his late grandmother Anna LaMotte, and his daughter Perashina LaMotte.

(Editor's note: Bill LaMotte, 35, Flint, biked from Grayling to Mio, swam across the pond, and ran from Mio to Oscoda.)

Bill's brother, Ed, ran some with him and followed in a car to help keep Bill alert. Bill said he walked for two hours and rested at different times for five of the hours. All told it took him 21 hours and 40 minutes. He started a half hour after the canoe race started and came in Sunday night at 8:40 p.m. Let's all help sponsor him next year as all donated money will go to the crippled children fund. A job well done for a good cause.

Doodles From The Tall Timber

Wendell L. Hoover
Park Interpreter

To the old-time shantyboy, any man who cut "short stuff" (firewood or especially railroad ties) wasn't really a man but, without those ties, the iron horse would not have been around to haul loads of logs. Because cutting and hauling ties did not require heavy equipment or large numbers of men, many settlers and homesteaders cut ties to supplement their meager incomes. Cutting ties was "piecework" or, in other words, the cutter was paid by the number of pieces cut.

Since trees for ties were not large, the two-man crosscut saw wasn't needed, so it was replaced by the one-man four-and-a-half-foot crosscut saw. The men worked singly cutting cedar or tamarack in what was known as and called a "strip." Once the tree was on the ground, it was hewed on two sides. Most men preferred to leave the top on the tree and the butt on the stump to hold the tree steady and up out of the snow. A scoring axe was first used to make scores some twelve to sixteen inches apart along the sides of the tree. Then a broadaxe was used to hew the two sides smooth and as even as possible. Most men hewed while standing on the tree, but some stood on the ground and used a broadaxe with an offset handle. The flat-sided tree trunk was cut into seven to eight-foot-long ties which were piled along the strips. In virgin cedar or tamarack, six or seven ties could be cut from a tree. Consider that a mile of average railroad has 2,500 to 3,000 ties and you begin to respect the amount of labor needed just to bring in the iron horse.

Alumni News

The first Homecoming dinner tickets were sent out to Ernest Larson '26...probably never missed one of our Alumni reunions...

Our thanks to Jim Adams, Carl Heidel, Carroll Wert, the photographers who furnished Senior pictures for the '83 and '84 Senior Class composites. To Todd Pfaff, '81 for putting them all together. To Charles Kolb for all the assistance. To Carl Naghtin and R.J. Hannan for being the authority in charge...For these two years, there were no composites for our remembrance. So...the Alumni Association picked this up as our gift to the young people of these classes. We now have them displayed in our Pole System at the High School and also in our Picture Album at the Alumni Office. We have activated our Album Fund this year. This could be our annual project. Pictures are so important...there is a stack of them at the Alumni Office which were taken from the Middle School walls. They have all been copied and preserved...Thanks to the G.H.S. Alumni Association...this is why we really could use some monetary help from all the separate reunions that actually are a part of all this...It is food for thought.

Free Diabetes Blood Test

A Free Diabetes detection clinic will be held Wednesday, August 22 in the lobby of Mercy Hospital from 12:30 to 3:30 p.m.

Bruce King, Health Educator at the hospital, said that though Diabetes is a common condition many people who have diabetes are not aware of it because symptoms are not always noticeable. People who have a family history of diabetes, those over forty years of age, those who are overweight, and persons who have felt any of the common symptoms of diabetes (excess thirst and urination, marked increase in appetite, slow healing, itching, or marked weight loss) are especially encouraged to attend.

All persons coming for the test should eat a large lunch two hours before the exam. The test is meant to detect new diabetics so known diabetics need not attend.

Diabetes detection clinics are offered several times each year courtesy of the Grayling Lions Club and Mercy Hospital.

Volunteers Needed

by Sue Louchart

Do you have three or four hours a week to help girls become better adults?

Do you have a talent or skill you would be willing to share as it was needed with the girls to broaden their knowledge?

Would you like to help with short term needs as driving, record keeping, craft supplies or phone calling?

The opportunities for adults in the Girl Scout program of Crawford County is wide. Leaders are needed to carry out the Girl Scout program to the girls. Leaders and co-leaders receive training and support in the program. Community support through sponsors, troop committees and a local Service Unit work with the leaders. Resource people in the community share their knowledge to help Cadettes and Juniors with badges and to open doors of curiosity to the Brownies.

The program for fall is being planned. Leaders are being matched with girls. Meeting places and sponsors are being found. Adult helpers are being found.

If you would like to help with the Girl Scouting program in Crawford County once a week, once a month, once a year - please contact Dixie Lobsinger, Troop Organizer at 348-8178 or Sue Louchart, Service Unit Director at 348-8117. The Crawford County Girl Scouts are supported by United Way.

Insect-Like Mammals

The naked mole rat, an extraordinary African mammal that behaves like an insect, congregates in large underground colonies with an extensive tunnel system and a large central nesting area. The almost hairless rodents have bodies resembling little sausages and two protruding front teeth that make them look like pocket-size walruses.

Blood Pressure Machine Now at Mac's Drugs

Mac's Drug Store installed a blood pressure monitoring machine last week. The machine is available for public use.

Store owner Larry McNamara said the machine is the first to be installed in Grayling. "It's free. People can use it as often as they want."

Checking blood pressure with the Vita-Stat machine takes 30 to 45 seconds. To use the machine, a person sits down, places his/her left arm in the cuff and pushes the start button. Directions are given on the machine. McNamara said that all store employees have been trained to use the machine and can offer assistance to persons using the machine if necessary.

Dennis Ganz, sales representative for Medical Screening Services, Niles, Ill., said the machine is used in hospitals and by industry. It has been tested and approved by medical associations and clinics, he added.

The machine has safety devices and electric and manual stops, he said. "You can't be locked into it."

The machine will be checked monthly for safety factors and accurate measurement, Ganz said.

McNamara said that the machine is more sophisticated than many machines sold for in-home use. It is worth approximately \$5,000. The store is leasing the machine, he said.

The blood pressure machine may be used during regular business hours.

Youth Service Bureau

Last week's Recreation Program was a "wet one" the first couple of days. The following activities took place.

Our Overnight Camping Trip, planned for Monday, was postponed until August 23-24 because of rain.

On Tuesday, because of the cancelling of the Camping Trip, we took the kids swimming at Pine Knoll for the day.

On Wednesday, we took a group of youth down the AuSable River. We ended up getting rained on all the way down. (Thanks to Doug and Amy for not cancelling when they should have!)

On Thursday, our Open Recreation group went on a Scavenger Hunt. They had a fun time.

This week's Recreation schedule includes:

Monday - Bowling from 10 a.m. to 2 p.m.

Tuesday - National Guard Camp Tour from 10 a.m. to 3 p.m.

Wednesday - Swimming at Pine Knoll from 10 a.m. to 2:30 p.m.

Thursday - Open Recreation will be going Hiking from 10 a.m. to 3 p.m.

The Youth Service Bureau is a Crawford County United Way supported Agency.

Economic Pain

A distinguished professor of economics says America's economic stagnation during the last 10 years is not the fault of the Arabs, the Federal Reserve or the President, but the fault of Congress. The Texas A&M economist said the blame lies with poor legislative decisions.

Editor's Mailbox

Dear Whitey:

This letter is to express appreciation to the voters of District 7 whether they supported me or Mr. Mahlon Riker. A second purpose, of more importance, is to respond to the incumbent Commissioner from Frederic who informed me at the County Building on election night that my problem with the present Commission is, "Joyce, your problem is that you are too qualified to be a commissioner." This ludicrous statement was followed by these words, "the only way you are going to get along with us next year is to come down to our level."

These direct quotes serve to prove conclusively the points I made in my letter of resignation in May, 1984. I had hoped that letter would be read and believed by enough citizens of Crawford County that they would find and place a candidate in opposition to incumbents whose quantity and quality of thinking exceeding those who would make such a remark.

I have news for the Commissioners from Frederic and the rest of the incumbent Board of Commissioners - I have never had, nor do I have now, any intention of lowering my standards or the standards of what those who elected me expect of me in any way shape or manner on any subject that comes before the Board or has any bearing on my position as an elected official of this county.

If the Commissioner from Frederic and his "clique" survive the general elections - and garnering a total of 72 votes to win a seat as did the incumbent from District 2 is certainly no mandate, perhaps between now and Tuesday, November 6th, the date of the General Election, enough voters in Crawford County will become aware of the "Blundering Bunch" now representing them and look for an alternative candidate whose goals or "level" for the welfare of the county exceeds those who presently hold these important positions.

Bradford Lake Assn. Meets

The Bradford Lake Property Owners Association held its first annual meeting at the Memorial Park at Waters on July 28, 1984. A business meeting was held and President Richard Brown introduced the board members: Vice-president Monica Reddish; Secretary Cecelia Schotte; Treasurer James Dickinson and Historian Marjorie Gould. A report was given by them and a question and answer period followed. It was decided that a picnic should be held at the annual meeting. Memberships and renewal memberships will also be available at the meeting or may be purchased at anytime from the treasurer.

Brown gave special thanks to the following for their support and assistance: Mary Brown, Norman Reddish, Howard Hess, Lyle of Benaway's Restaurant, Don of D.J.s Party Store both of Waters, and McDonald's of Grayling. The meeting ended and all were invited to enjoy the games and food and beverages. About 80 people attended the first annual meeting.

Oakland University is a diverse, state-supported institution with an enrollment of approximately 12,000 students. The university offers more than 65 undergraduate and master's degree programs and Ph.D.s in engineering, reading, and the biological sciences. The university has established an international reputation in eye research and in the study of hormones and their roles in aging and cancer. External research support exceeded \$4 million in 1983-1984.

SENIOR CITIZEN'S CORNER

HELPFUL IDEAS FOR SUCCESSFUL RETIREMENT

Doing It

Successful retirement can sometimes be a matter of attitude. Like everything else in life, the old adage that you "get out according to what you put in" holds true.

Among those people who get the most out of their senior years are those who have managed to learn that enthusiasm can often overcome inexperience.

Retirement offers the opportunity to be bold, to try new things—new hobbies, new ventures, whatever—without having to worry about losing anything but time. This is not to say that one can undertake some expensive new business or invest heavily in some plan or scheme. It means, instead, that the individual who has always had an urge to build a boat,

add a room, raise a garden, or whatever, has the time to study the problem and learn by doing. And, there is no penalty for failure. A job or a career doesn't hang in the balance.

The problem lies in overcoming a lifetime of caution, a natural inclination to say "I can't do it" without taking a real shot at getting it done.

One oldtimer, who admits to a 50-50 success ratio in the new-venture category, says there is much to be gained from a willingness to try something new. "I no longer wonder if I have the talent and energy to do something," he explains. "I give it a whirl. If I can do it, I feel quite proud. If it's beyond me, I have the satisfaction of knowing so."

Crawford County Board of Commissioners

The July 26th meeting of the County Board convened at 9:40 a.m. All commissioners attended; and five visitors were present at various times.

IN FORMAL ACTION, THE BOARD:

- Accepted the July 10th minutes with one clarification.
- Reviewed and accepted 26 pieces of correspondence.
- Approved the Rotary Club undertaking renovation of the old railroad depot; and authorized that the building be appraised and insured under the county's self-insurance program.
- Approved an Audit Agreement with Chadwick, Zick & Company, P.C. for an amount not to exceed \$8,800.00 per year for 1983-84-85 and 1986.
- Approved payment of General Fund vouchers in the amount of \$2,595.91.
- Decided, after much discussion, to engage a consultant to assist the Labor Committee in their negotiations with the Fraternal Order of Police. Mr. George Rybicki will be asked for his assistance.
- Authorized execution of a three month contract with the Northeast MI Consortium for the Fish Hatchery Project.

REPORTS & ANNOUNCEMENTS:

- Miller reported that contamination has been detected in three and possibly four wells at the landfill; and that clay capping must be done soon. It is hoped that employees can accomplish the spreading in steps to save cost.
 - Comm. On Aging: The 1983-84 budget is being amended; and the 1984-85 budget is being formulated, along with personnel policies and job descriptions. The NEMCOA Contract has been extended to the end of the year; and it is hoped that a rental agreement to put programs back in the City Housing Commission facility will be realized by the end of August. It has been decided to increase C.O.A. membership to seven; and a new Widows & Widowers program will soon be introduced. Some C.O.A. equipment may be sold following inventory; and cost of vehicle maintenance through Dial-A-Ride was reviewed. The Commission on Aging and its staff were commended for sustaining senior programs under difficult circumstances.
 - Consortium: Consolidation between the Consortium and NEMCOG has been deemed not feasible, because memberships are not contiguous. Better communication, some sharing of office space & equipment and better meeting scheduling will be worked out.
 - Sheriff's Report: The status of negotiations with the F.O.P. was discussed at length, with emphasis on the need for a consultant to assist the Labor Committee. The order for new freezers has been delayed because the old one is presently functioning properly. Estimates for repair of a patrol car were reviewed; and more will be obtained. Also reviewed was an incident involving a faulty rifle, and difficulties recently encountered by the county electrical inspector. Harland stressed that the rumor circulating about lay offs in the Sheriff Dept. was false; and that lay offs have never been discussed.
 - District Health: Crawford's 1985 appropriation is estimated at \$69,431.00 including office rental; and a new Positive Parenting Program has been initiated.
 - Soil Conservation: The DNR is going out of the nursery business; and the JPTA Summer Youth Program has been utilized for several projects.
 - Learned that Senator Levin would not insist Camp Grayling be considered for a light infantry division if the community opposed it.
 - Heard a report on the Co-op Extension's conference at Wa Wa Sum, and the NACo conference in Washington.
 - Discussed the subject of office space and equipment for the new Circuit Court Judgeship with Alton Davis. Davis indicated that he would request no additional accommodations or equipment.

We are having a chili contest at the Crawford County Fair, August 25th at Hanson Hills, the rules are simple: 1) you must home make at least one gallon of your famous family chili, 2) have it in a container that will stay hot with your name on the container, 3) there is a \$1.00 entry fee, 4) you will serve free samples to public after it is judged.

There will be three trophies given. Hottest, Most Unusual and Best Overall, you must have Chili at Hanson Hills before 7 p.m. August 25th. If you are interested please call Lloyd Nevins at 348-9790.

We received a very interesting letter with a challenge to you, it follows.

Dear Mr. Nevins, I read about your Chili Contest, being held at the Crawford County Fair, August 25th. The article stated that you were seeking to find the best Chili around, look no more, I have always made the best Chili in the world. I'm sending in this letter \$10.00 to go to the best overall Chili, along with the trophy you are giving.

Please Mr. Nevins, if you can make my offer known to all those folks who make good chili, and to all those who don't, take my challenge I would like to invite you to come out to Hanson Hills, sample free the best chili, (mine of course).

Thank You,

Chamber Chatter

By Joyce Kolka

The Grayling area float was on the road again last weekend. Our pretty queen Shawn Lovely and Chris Larsen, member of her court represented Grayling by riding on the float in the Elk Rapids Harbor Days Parade. A big thanks to Bill O'Brien for pulling the float there and to Terry Misener Ford for furnishing the vehicle to pull the float in most of the parades this year. In last weeks column we overlooked thanking the Millikin crew for all their help with the float. Thanks much to all who have helped this year.

There were no motel or cottage vacancies in the Grayling area this past weekend. This should mean a terrific boost in the economy for the entire community. The Chamber staff is working with the member motels and cottages whereby each week the owner/manager phones in the number of vacancies he has, if any, for the weekend. This system encourages the tourists to phone the Chamber and in turn receive only the names of those places with vacancies. Previously the Chamber staff gave the caller or walk in the entire list of members to call and when making long distance calls, it becomes rather expensive. The caller, however, is given the entire list if he so desires.

A few interesting statistics have been compiled since moving to our new location. From June 28 to August 8th we have received 540 phone calls, 1,485 walk ins, 439 letters mailed and 781 brochures and other pieces mailed. On Saturday the 7th of July (4th of July Celebration) there were 13 phone calls and 216 walk ins; on Saturday of Milltown Festival, 13 phone calls and 140 walk ins that could be counted until 4 p.m., but we were so busy we quit counting.

Our new brochures are in and moving very rapidly. Chamber members may pick up a quantity from the office.

This week the welcome mat is out for the Hospitality House. Steve and Phyllis Sauter are the owners of the lovely motel which is located on the I-75 Business Loop North. We are very pleased to have them join the Chamber Membership.

CHURCH DIRECTORY

KEEPING IN SHAPE

Rita and Paul are just one of the couples in our neighborhood who jog together to keep in shape. They say the first week was so exhausting they almost gave up. Now that mile or so every morning gives tone and zest to the rest of the day.

What jogging does for the body, worship does for the soul. Our spiritual energies need to be used, enriched, renewed. Jesus himself confirmed the ancient principle that man does not live by bread alone but by God's revealing Word.

Naturally if a couple have been away from church a while it takes real resolve to rebuild their worship-life. After a few Sundays our time with God becomes the source of power and strength for every day's challenge.
